# Camp Rules

## National Jamboree 2024

1. The Scout Law and the Youth Law are the laws of the Jamboree.
2. Participants must remain on the Jamboree grounds for the duration of the Jamboree, excepting external activities sponsored by the Jamboree committee. In other cases, a permit is required from the Jamboree committee to leave the premises.
3. Participants must return to their camps after the end of the evening program. Quiet time will start after the end of the planned program and no later than 23:00. Please respect that some scouts may be sleeping at this time.
4. Smoking and the use of nicotine are strictly prohibited on the Jamboree grounds. This includes the use of vape, e-cigarettes, nicotine pouches, and chewing tobacco.
5. The use of alcohol or other stimulants is prohibited during the Jamboree. Any violation of this will result in expulsion without exception.
6. Participants are encouraged to wear their scout/guide uniforms, especially at major events like the opening and closing ceremonies. At other times you should always, at a minimum, wear the Jamboree neckerchief.
7. Fires may not be lit except in designated areas.
8. Motorized traffic is prohibited on the Jamboree grounds, except as authorized by the Jamboree committee.
9. Drones are not allowed at the campsite.
10. Participants must abide by the camp rules for the duration of the Jamboree.
11. Contingent leaders are responsible for their scouts/guides abiding by these rules.
